Mrs. A was the bomb! We loved her for the amazing woman, mother and teacher she was. She touched the lives of so many of her students, always able to get through to us by talking to us like intelligent capable people and not stupid kids. She never grew up and we loved that she kept her sense of humor and made life fun while still cracking the whip and filling our brains with valuable knowledge! 22 years later we still think about her.

“ Mrs. Higgins...please know how I appreciated you as my Girl Scout leader...we are entering Lent/Easter season...and I have powerful thoughts of you prepping us for Girl Scouts, as well as Lent. At that time, we congregated at the River Street/Battle of Carthage Park. You were lovely!
And...thank you so very much for coming to my mother's funeral. I appreciate the kind recognition of my mother. ✨: 1: 🙏

“ Your family is in our thoughts and prayers during this difficult time. Donna played a big part of my teenage years.
I have a tremendous amount of memories with my closest friends and Donna beginning with my 2 years in her French class to teaching my children to many years later when our daughters became friends. Her first year of teaching was my Jr year of high school. She was an amazing teacher and due to the fact she was only a few years older than all of us, she was also a friend who listened to our teenage woes. Many times we invaded her mothers house for lunch and ironically my oldest son currently lives in the house she lived in on Main street when she was my teacher and her oldest children were toddlers. She told my children one time that if they thought she was a tough grouchy old teacher to blame their mother and her friends for the first few years of her teaching and learning every ornery trick in the book.
I never hear a Rod Stewart song without thinking of her probably never will. Just wanted to share some memories with her family.
I am so very sorry for her family to have lost such a wonderful lady.

“ Donna, I considered you my second mom. In the summer of 1989, Donna and my mom met while attending Lamaze class together and they were both pregnant with girls. Greta was born on July 2nd, I followed several weeks later on July 31st and that's where our relationship begins. Greta and I started attending the same daycare together as infants when our moms went back to work. We like to say we have been friends since before we were born! (Right Greta, haha!). We attended that daycare for several years together. I have way too many memories of Donna to even write down. She treated me like one of her own children. I spent most of my childhood summer days over at the Aronson house. Donna would spoil us with junk food, getting pizza delivered (always from Pizza Hut), and letting Greta and I stay up all night long. She took us to movies in Joplin riding in her tan station wagon, and we would sit in the back row that was facing backwards. We took trips to Silver Dollar City, she took Greta and I to vacation bible school, and countless other days spent by the pool at their home. Donna would also take us up to her classroom to get ready for the school year. Greta, Sadie and I would run around the gigantic high school as it seemed to us. After I graduated high school, I moved to a different town but Donna was always there supporting me in anything I did. She was at my wedding shower and wedding. Donna and Sadie attended my LPN graduation and told me how proud she was of me. She scolded me a few years later when I forgot to let her know when I was graduating for RN school. Donna told me she would have been there in a heartbeat to see me walk across that stage. Donna and the girls were at my first son's baby shower along with his first birthday party. Donna, thank you for all of the memories I have been a part of with you and your beautiful family. I am forever grateful you met my mom in Lamaze class 28 years ago. I love you and you will forever be in my memory as an amazing woman who was always cheering me on.

“ My sincere condolences, my time in Carthage was just 4 years, but she was a teacher I well remembered. She was always full of joy and wanted to make learning fun with French and as an AFSer.

Elle a enseigné et conduit avec joie! Que sa famille vienne trouver la paix dans les jours à venir.
