“ My favorite memory of my dad was when he had me jump up in the driver seat of his semi and had me drive it around the block 2 times.... he told me that I amazed him on how well I drove his truck... when I think about this memory all I can do is smile.

“ My favorite memory of my husband was and is and always will be the fact that he was compassionate enough to help anybody that had a problem and he was there for anyone and everyone I mean he never worried about if you made him mad or not he was still there for you and I know that he is continuing to do that in heaven I will always miss him and he has been the love of my life I know that I've always told him that when I make a promise I'll keep it clear up until the day that he is either cremated into dust or put into the ground I will always keep my promise about taking care of him to the very very end I love you Jeff I will always eternally love you and I miss you so much

“ My greatest memory of all time with dad was him being able to hold all four of his grandkids right after they were born he was such a proud papa and his grandkids thought the world of him.

I'm proud that he was able to have grandkids before I was able to bless him with kids of my own. One of the other milestones he will be greatly missed from.
